

# RANDHIR KUMAR

## PROFESSIONAL SUMMARY

Over 8.6 years of experience in native iOS application development and project execution, with a strong focus on Swift, SwiftUI, and Objective-C. Certified iOS developer in banking and insurance domains at Level 1 and Level 2. Proven ability to collaborate with clients and cross-functional teams to manage multiple projects effectively.

## WORK HISTORY

### Senior Consultant

Capgemini India | Pune, Maharashtra | April 2022 - Current

- **Major Client:** HSBC Bank, Fiserv Inc.
- Established strong working relationships with both internal teams as well as external vendors and clients.
- Facilitated workshops with stakeholders to review current procedures and develop new processes.
- Provided strategic guidance to clients on best practices for business operations.
- Managed multiple client engagements simultaneously while adhering to tight deadlines.

### Senior Software Engineer

GlobalLogic India | Noida, Uttar Pradesh | July 2021 - April 2022

- **Major Client:** Samsung SDS.
- Implemented new features into existing software solutions.
- Integrated third-party APIs into existing systems.
- Resolved complex issues related to software applications quickly and effectively.

### Technical Team Lead

Chetu India | Noida, Uttar Pradesh | September 2018 - July 2021

- **Major Client:** Paradigm Services.
- Ensured compliance with industry standards, regulations, policies, and procedures.
- Provided guidance and mentorship to new team members.
- Assigned tasks to team members based on their strengths and weaknesses.

### IOS Developer

Twistfuture Software | New Delhi, Delhi | September 2018 - December 2019

- **Major Client:** Weebok.
- Collaborated with other developers and designers to ensure successful deployment of iOS apps.
- Developed iOS applications using Objective-C, Swift, and Xcode.
- Worked closely with QA teams to ensure that new features are tested thoroughly before release.

## PROJECTS

- **HSBC HealthPass:** HSBC HealthPass is a health services membership program by HSBC Life (International) Limited, not an insurance product, and not offered by the Hongkong and Shanghai Banking Corporation. As part of the Well+ Programme, it provides members with discounted access to health, medical, and wellness services, rewarding those who actively pursue better health and well-being.

- SpendTrack is a native iOS application developed by Fiserv, featuring two modules: Card Holder and Programming Admin. In the Card Holder module, users manage their credit card dashboard, expenses, transactions, and account details. In the Programming Admin (PA) module, admins can view account holders and manage credit card accounts, transactions, payments, and expense details

**App Store link:** <https://apps.apple.com/us/app/spendtrack/id1672652764>

- **C28Collection:** C28Collection is an iOS framework developed by HSBC Bank that displays a list of loan accounts, including personal loans, credit cards, mortgages, and overdrafts. Users can select an account and request changes to their loan repayment date, and upon approval, the repayment date is automatically updated within the system.
- **Samsung Knox & Brity Mail:** Samsung Knox is an enterprise iOS application developed by Samsung SDS. It offers core email functionalities, including Inbox, Sent, Drafts, and the ability to mark emails as important. Users can also schedule meetings by selecting available meeting rooms and sending approval requests to supervisors for necessary authorization.
